

LET'S BITE BACK.

Greenpoint's Dogs and Dog Owners shouldn't have a ruff time trying to watch a sunset or take a walk. We all deserve equal access to NYC Parks. Get Involved.

Greenpoint has one of the largest dog populations in NYC, but limited parks. Now dogs are banned from the only park in North Greenpoint with no warning.

Anti-dog activists have tried to ban pets from Transmitter Park for years because dogs and a dog-run aren't in their vision for the park.

Pets were recently banned from the park without any community outreach or involvement. The nearest park is over a mile away, making it unsuitable for many. McCarren suddenly park ended off-leash hours without warning too.

Get involved and help us restore leashed access and ensure a dog run is built on the grounds. Transmitter Park is small, but big enough to share. A dedicated dog run should have been installed years ago - lets make that happen today.
